Anti Gravity Sphere

Hi, I represent a Sphere sculpture which is simple but also complicated.

You can print it in one piece, with support (than be careful when you want remove them), or way which I do not recommend, which is one by one, and than with drop of glue, put it together, but it will no longer look the same, but you can create new shape :D

Also there is no limit, how many Sphere you can put together or how big they must be :D

Recommend print with my profile.

Can be printed on A1 Mini.

You can print in PLA, PETG, ABS.

Do not print with Galaxy PLA filaments (All Brands) otherwise you will never take off Supports :D !!!

Enjoy
