updated 14. 8. 2024 | published 14. 8. 2024

Summary

I modified the existing design to fit a USA Trains R22-115 motor block. I also modified to accept real springs.

[Toys & Games](#) > [Outdoor Toys](#)

I lengthened the existing sideframe to fit a USA Trains R22-115 motor block.

I also removed the plastic springs and added receptacles for real springs.

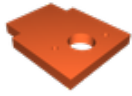

This remix is based on

EMD Flexicoil sideframes for USA Trains NW2/S4 motor blocks
