i made this mount for my Red Dragon web cam. To mount it all you need to do is remove the screw from the clamp on the camera and attach it using that screw to the mount. The mount can be attached to the printer by taking two of the screw off the x motor housing and using them to attach the mount.

Print Settings

Printer Brand:

Creality

Printer:

Ender-3 v2

****Rafts:****

No

Supports:

No

****Infill:****

20%

Filament: Inland PLA, PLA+

Notes:

the best way to print the part is to lay it on its side where the X motor mounting holes are at the top. This will remove the need for support.
