Tags: [dog](#) [lowpoly](#) [remix](#) [pets](#) [greyhound](#) [whippet](#)

**REMIX: Credit to Tubbers (Listed as original author on Printables)**

I made the base of the Whippet flat for printability. This model is scaled to 1350% of the original to fit the entire bed 220x220. I did not try printing the original before using tinker cad to flatten the base. It may have printed perfectly fine.

**Printed on Creality K1**

**Nozzle: 0.4mm**

**Layer Height: 0.2mm**

**No Support: (Threshold of 30 degrees)**

**Weight: 123g**

**Infill: 15% (can go lower)**

**Print Time: 2 Hours 17 mins**

**Note: The STL is called Effy-G after one of the work dogs.**
