I needed a soldering iron mount for the Minimalistic Heat insert press. It has space for soldering irons with a diameter of 19-20mm.

You need:

2x M3 insert nuts

1x M5 nut

1x M5 x 25mm screws or M5x16 thumb screw

2x m3x 8mm screws

It was printed in Bambulab ASA gray.

This remix is based on

Minimalist Heat Insert Press
