## Summary

(stush) wallmount hanger/hooks to organize stuff with loops like lanyards

was looking for a way to organize my lanyard-collection from the most various festivals.

(over 6KG in total). i wanted it to be mostly stush with the wall, screws hidden and curved kinda like bauhaus-style.

the wallplate's tolerances are set quite high (to accomodate support-residues), but the parts still fit snugly.

have fun...! :)
