Summary

A simple and sturdy bracket to reinforce a corner joint of a box

[Household](#) > [Other House Equipment](#)

I designed this print to add a little bit of reinforcement for some wooden cabinets. I put the bracket in the corner of my cabinets to attach all 3 sides together. I also used them to attach a countertop to the kitchen cabinets below. It's a simple, bracket used for attaching 3 pieces of material together.

Printed with 100% infill for strength.
