Summary

Diy water filter

[Gadgets](#) > [Other Gadgets](#)

Tags: [water](#) [filter](#) [camping](#) [waterfilter](#) [summercamp](#)

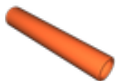

First put a fabric inside the pipe and put materials inside the fabric as shown in the diagram and put a piece of cotton on top and then it is ready for use.

!boiled water before drink!

(Be careful when using it. This is not a professional filter and be careful of possible health problems. The designer is not responsible for this!!)
