This organizer was designed for a student's desk or your home office. I have included an optional divider for the largest hexagon. With this divider, the tall hexagon is perfect for pens, pencils, etc. The divider just drops in place.

Print Settings

I prefer to print this model with a minimal amount of infill. I only use 15% infill for the bottom two millimeters. For all layers after, I use no infill.

The following filaments were used in the pictures above:

- **Bambu Lab Matte Scarlet Red PLA**
