### Description

Meet our friendly dragon with horns, a delightful and fully articulated model ready to bring joy to your life! This charming creature can move its head, legs, torso, paws, and tail, and it can even stand on its own. Dragons are known for their strength, but this one also loves to give hugs!

Why You'll Love It:

- **Fully Articulated:** Every part of this dragon moves, making it perfect for posing and play.
- **Standing Tall:** The dragon can stand on its own legs, ready to embark on adventures or simply watch over your desk.
- **Versatile Printing:** Choose between a single-color version or a vibrant 4-color model using the AMS system. Profiles are available for both 0.6mm and 0.4mm nozzles.
- **Efficient Printing:** The AMS profile minimizes filament waste, working beautifully with delicate shades (like pastel PLA). For high-

contrast colors, manually set the "Purging Volume" for the best results.

- Special Edition: The "DragonLarge" profile for a rainbow-colored dragon is 200% of the original model, making a striking statement piece.
- Friendly Companion: This dragon is designed to be a cheerful friend, perfect as a unique, heartfelt gift that can't be found anywhere else.

Our goal is to spread a little more happiness in the world. This model is completely free, crafted to bring smiles and lift spirits. All prints have been tested with PLA on P1S and A1 printers. Knowing that our dragon has brought joy to even one person makes it all worthwhile.

Let's make the world a bit brighter together. Enjoy printing, playing, and sharing the joy with our friendly dragon!
