This Horried insert includes the following pieces:

- Monster box with personalized compartment for each monster and its tokens
- Heroes compact storage
- Villagers standing storage
- Heroes and locations personalized storage
- Separated card storage for perks and monster cards, using the amazing Transformer Card Holder

The item bag fits in the box in a designated space, monster mats go below everything (or above if that's your preference).

Everything fits in the box with no lid lift.

PD: the cardboard modification is to cut the side pieces, so it stays mostly square to fit all the components.
