Summary

a model of an old-school phone

[3D Printers](#) > [Test Models](#)

Tags: [phone](#) [antenna](#) [oldschool](#)

an old school phone I made as a tiny project.

- it's just a simple model that's not exactly made for printing but it should be printable with some supports at the antenna.
- feel free to remix it and use it for whatever (just give me credits I worked hard on it)
