Remix of the Oscar Statue but separated from the base and reduced in size to 65%

[Household](#) > [Office](#)

Tags: [trophy](#) [award](#) [oscars](#)

Amended the original model to remove the statue from the base. Reduced in size to 65% so that you can fit 20 statues onto the build plate.

I've included the code for both the Statue (sliced for generic silk pla) and the base (sliced for generic black pla). I've also included the label 3mf file, there are 20 small ones and a single larger one for the larger version of the statue too.
