Summary

A simple, easy, and customizable solution for organizing your desk or workshop

[Hobby & Makers](#) > [Organizers](#)

Tags: [shelf](#) [organizer](#) [desk](#) [stackable](#) [deskorganizer](#)
[stack](#) [nosupport](#) [nosupports](#) [supportfree](#)

This is a stackable shelf system designed to be easily printable, robust, and filament efficient. Stack your shelves vertically or horizontally and free up space on your desk! The design prints without support and is easily assembled with no glue or screws. There are two trays available: A standard tray for the “floor” of each shelf, and a top tray that blends nicely onto the uppermost shelf for a better look. I am looking forward to modifying and adding on to this design to make it as useful as possible, so if you have any feedback let me know!

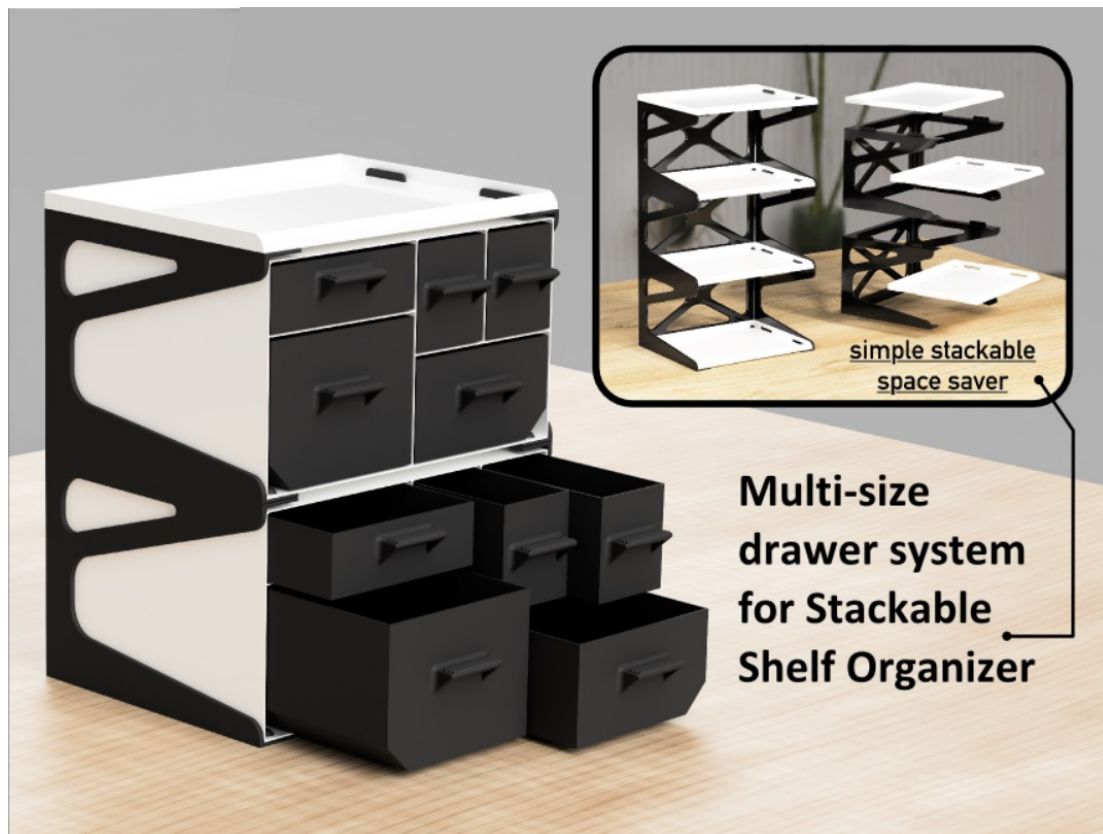

Print Settings:

All files should be printed in the provided orientation without support

- .24mm layer height
- 4 walls
- 20% cubic infill
- Brim may be needed

Drawer System Available!

If you're looking for more storage options for your shelf organizer, check out this fully compatible drawer design: <https://www.printables.com/model/988687-stackable-shelf-organizer-drawer-system>

Changelog:

*This project was first uploaded to MakerWorld if you're wondering why the dates seem strange :)

Update V1.1 - 4/19/24

- Wall mounting holes added to shelf for more placement options
- Tray walls thickened to improve durability
- Small adhesion / anti-warping changes made to shelf

New tray update - 7/9/24

- Basket tray added for storing loose items

Shelf update - 8/25/24 - Stronger shelf file added for better longevity
