A set of printable pipelines with a little gothic twist. Perfect for 28mm wargaming like Warhammer 40k.

The pipeline height is around 30mm when assembled. The connectors also fit nicely on GW:s Command Edition/Manufactorum Battlefield pipelines.

FDM friendly and (mostly) support free.

Tested with Prusa Mini + Input shaper using prusament PLA (0.1 layer height)

-08.2025: Added T- and X-joints for more variation
